	Mission: Super-Human Learning Kit								

SCIENCE	WS8.1: Analyze the impact of natural and human-induced changes to the characteristics and distribution of water in local, regional, and national ecosystems.	SOCIAL STUDIES	RW8.1: Analyze the social and environmental consequences of living in the Canadian mixed market economy based on consumerism.	HEALTH	USC8.5: Assess how body image satisfaction/dissatisfaction and over-reliance on appearance as a source of identity and self-esteem affects the quality of life of self and family.
	CC8.1: Examine how a disposition for lifelong learning connects to potential career pathways.		RW8.2: Assess the implications of personal consumer choices.		USC8.6: Examine and assess the concept of sustainability from many perspectives, and develop an understanding of its implications for the well-being of self, others, and the environment.
CAREERS	LW8.1: Compare skills taxonomies such as Essential Skills and Employability Skills and examine how an individual's skills may influence possible future occupational choices.		DR8.1: Develop an understanding of the significance of land on the evolution of Canadian identity.
