DISCOVER AITC RESOURCES

AITC offers a variety of high-quality, educational resources to help you meet curriculum outcomes. Get to know our offerings by exploring the following:

Lesson Plan

A curriculum-based guided activity or lesson designed to take one to two class periods.

Mini Unit Plan

A series of lesson plans designed to be taught together to encourage deeper learning in a certain topic.

Activity

Provides instructions for a short activity, experiment, or game to complement existing lessons in your classroom.

Book

Storybooks about food and agriculture. Most have companion material such as guided reading lessons and activity books.

Informational Resource

Provides information on the food and agriculture sector that can help address curriculum outcomes.

Video

Documentaries and videos that include a learning guide to guide teacher and student exploration into video content.

Learning Kit

Contains a lesson plan and materials required to complete hands-on activities.

NEW TOOL HELPS TEACHERS SAVE TIME

AITC's NEW resource library provides unlimited access to hundreds of FREE educational resources. **Sign up for an AITC Account and you'll be able to:**

- View each resource's outcomes and indicators
- Favourite most-loved and want-to-try resources
- Access your personal resource dashboard to:
 - ...View resource download history
 - ...Track resource orders
- One click ordering, no more long forms!

www.aitcdashboard.ca

The AITC Dashboard will be your one-stop shop for educational program and resource management! Scan the QR code to get started now!

RESOURCE CURRICULUM MAP

Integrating AITC resources into your K-12 classrooms has never been easier with our Resource Curriculum Map tool. It provides resources that are mapped to the curriculum for each grade, ensuring you meet outcomes with hands-on learning experiences for your students. Find resources to meet your outcomes by scanning the QR code or visit www.aitc.sk.ca.

Educator Newsletter

Don't miss registering for a program in your area, sign up for our monthly educator e-newsletter! PLUS you will receive first dibs on new educational resources, professional development opportunities, student opportunities and contests.

Teacher Opportunities

Teacher Agriculture Expedition

AUGUST 2023 | Province-wide

An action-packed, hands-on agriculture and food tour for teachers that will motivate you, and provide you with the tools and knowledge to incorporate agriculture education in to your classroom teachings. You will personally interact with farmers and agriculture personnel at their operations to learn about food production, science and technology in agriculture, sustainability, and feeding the growing world. **Sign up for our educator e-newsletter for application information.**

Science Teachers Workshop

FALL 2022 | Saskatoon

Did you know that over one-third of Canada's ag-biotech industry is located in Saskatchewan?

Expand your own understanding of biotechnology so you can answer your student's questions, easily connect real-life examples to text book examples, and inspire your students to consider a career in biosciences! **Sign up for our educator e-newsletter for more information.**

Student Opportunities

G3 Grow Beyond Scholarship

The future of the agriculture industry relies on innovation and technology in order to keep up with global demand. This calls for new ideas, and the possibilities are endless. The G3 Grow Beyond Scholarship is helping Grade 12 students recognize and reach their full potential in leading that change. Students are invited to share their ideas for a chance to win a scholarship.

In partnership with:

Global Youth Institute

Grades 8 to 11 students passionate about global food security and agriculture can apply to represent Saskatchewan at the prestigious Global Youth Institute in Des Moines, Iowa. Two selected students will attend, all-expenses-paid, to discuss pressing food security and agricultural issues with international experts, and connect with other student leaders from around the world to share ideas, identify solutions and build lasting friendships.

In partnership with:

e-newsletter!

Featured Resources

Agriculture Website for Kids

Careers, Sci, SS
GRADES 3 TO 7

“This website is not only visually appealing to elementary and middle year students, but it is jam packed full of engaging and interactive content!... The pre-made activities and strong curriculum connections made it a super valuable resource. My kids loved it!”

- NICOLE FREEDEN, TEACHER

ExploreSaskAg.ca is a kid-friendly website that brings the story of the past, evolution, present and future of agriculture to life. It features highly interactive information, real photos, colourful illustrations, quizzes, teacher lessons and more!

Plants, People & Climate Change

Sci, SS
GRADES 3 TO 6

“It is a hands on approach to teaching about plants, the environment, responsibility, stewardship, empathy and working together.”

- LYNN GOBEIL,
ELEMENTARY TEACHER

Students explore the interconnections between plants, people and our planet. Lessons engage students in plant biology and processes, soil science, food waste and the implications for climate change through videos, hands-on activities and action-oriented reflections.

LEARNING KITS

My Food Story

Hlth, ELA, SS

GRADES K TO 4

Use this kit to encourage students to learn more about Saskatchewan agriculture and explore their personal relationship with food. Included is a lesson plan and a placemat for each student to share their own personal food stories.

FR

Healthy Foods from Healthy Farms

Hlth, ELA, SS

GRADES K TO 6

Students make connections between the food we eat and the people in our community who grow it and process it by creating a healthy snack using Canada's new Food Guide.

FR

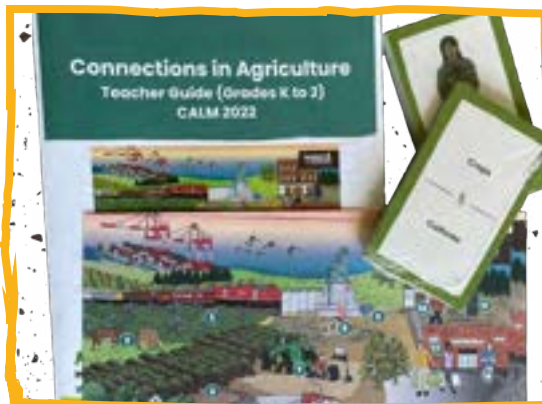

Connections in Agriculture

ELA, Hlth, Sci, SS

GRADES K TO 6

An interactive lesson focused on building student understanding of agriculture and fostering critical thinking. Students explore the connections we have to the world around us through a hands-on activity.

Living Necklace Kit

Arts, Sci

GRADES 1 TO 4

This kit includes instructions and materials for 35 students to each make a necklace using a cotton ball, plastic bag, string and seeds. In a few days the seeds sprout and the necklace comes alive!

FR

LEARNING KITS

Food Waste & You

Hlth, SS

GRADES 1 TO 6

Students will explore how food is lost or wasted throughout Canada's food value chain, what the agriculture industry is doing to reduce loss and waste, and what they can personally do to reduce food waste.

Dig Deeper: A Soil Discovery Kit

Sci

GRADE 3

Students delve into the story of soil and its central role in sustaining life on earth. Hands-on activities focus on what soils are made of, the diversity of life in soils, their productive capacity to grow food, and an exploration of the root zone.

Saskatchewan Seed Kit

Sci, SS

GRADE 3

The Saskatchewan Seed Kit comes complete with 5 sets of 13 samples of Saskatchewan's most common seed varieties and suggested activities to engage your students in learning about crop production in Saskatchewan.

What's in Your Lunchbox?

Hlth, ELA, SS

GRADES 3 TO 6

Students learn which crops, animals and plant parts are needed to make the foods that they commonly eat, which can lead to healthier eating choices and a better appreciation for food and agriculture.

BOOKS

Devlin Saves a Lamb

ELA, Hlth, Sci
GRADES K TO 2

Join Devlin the farmhouse dog and his family on their farm to learn about roles and responsibility. Students will follow along as Devlin makes a mistake and must decide how to fix it, as he and the students both learn an important life lesson.

FR

A Harvest Story

ELA, Sci, SS
GRADES K TO 3

Beautifully illustrated and written by Saskatchewan artists, this storybook poetically walks students through a day in the life of a farmer at harvest. Students will better understand the pride that comes with producing food, and the importance of agriculture in our lives.

Blossom's Big Job

Arts, Sci, Hlth, ELA
GRADES K TO 3

In this charming storybook, a hard working bee encourages trust and perseverance while students learn about pollination and how honey is made. An animated story and video read along available, and extend learning with a Guided Reading Lesson Plan and Activity Book.

FR

Order FREE books and
other resources at:
www.aitc.sk.ca

BOOKS

Alex's First Seed

ELA, Sci

GRADES K TO 3

A storybook about a little worm who helps to grow his first plant. This fun, educational book will help students learn about the important role that worms play in maintaining healthy soil in order to grow healthy food. Extend learning with a Guided Reading Lesson Plan and Activity Book available to download.

What's Growing Around Us?

ELA, Sci, SS

GRADES 2 TO 4

Follow Abby and her mom as they take a fieldtrip in the prairies to learn about where their food comes from! The adventure highlights many of the crops and livestock that are grown and raised on the prairies. Extend learning with an Activity Book available to download.

Where Beef Comes From

Careers, PAA, Sci

GRADE 3

Students learn about beef production in Saskatchewan, including different steps in producing, growing and manufacturing beef. They will also learn the valuable role beef plays in their daily diet. Extend learning with a lesson plan and teacher guide available to download.

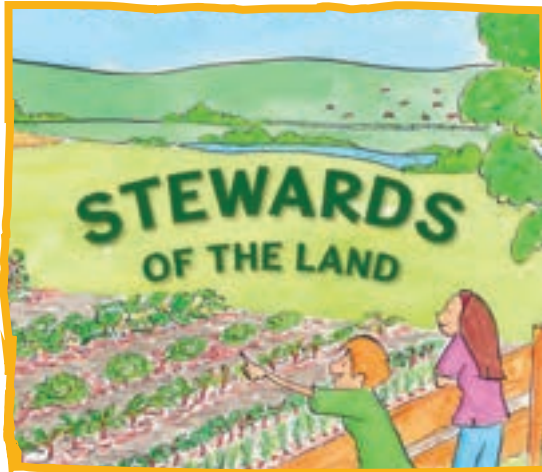

BOOKS

Reggie's Technology Adventure

ELA, Hlth, Sci, SS
GRADES 3 TO 5

Our pal Reggie is tasked with doing a school project on technology in agriculture. Join Reggie and his mom as they tour the countryside and learn about various ways the agriculture industry uses technology! Extend learning with accompanying student worksheets and slideshow available for download.

The Adventures of Michael & Mia: Stewards of the Land

ELA, Sci, SS
GRADES 4 TO 6

Join Michael and Mia on a gardening and farming adventure! Complete with illustrations, photographs and infographics, this storybook focuses on farm stewardship and sustainability, while also highlighting modern farm practices and technologies.

MINI UNIT PLANS

Season 1: The Great Canadian Farm Tour

Sci
GRADES 2 TO 4

Learn about Canada's exciting agriculture and food story, and see what life is like for real Canadian farmers all across the country by taking your students on 11 virtual farm tours. Also included is an activity book to engage students along the tour.

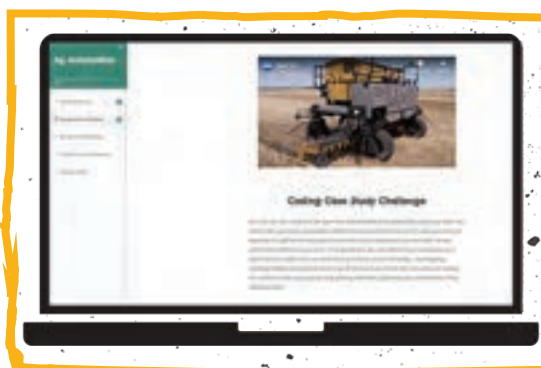

LESSON PLANS

Automation in AG

Sci

GRADES 5 TO 6

Working with either Edison or Microbit systems, students will gain an understanding of the importance of automation in agriculture while working together to complete a series of fun coding activities. Note: Edison and Microbit systems are not supplied by AITC-SK.

Let's Eat: Plants!

Sci, SS

GRADES 3 TO 5

An interactive resource where students learn which grain, fruit and vegetable crops are needed to make the foods they commonly eat. Plant parts as food ingredients are also investigated.

INFORMATIONAL RESOURCE

Foundations of Saskatchewan Agriculture

Sci, SS

GRADES 3 TO 4

A series of interactive courses and information sheets that explore the different crops grown and animals raised in Saskatchewan. Included are in-depth PDFs for teachers, and summary PDFs and e-learning courses for students.

FR

CLASSROOM GARDEN PROGRAMS

Little Green Sprouts

Province-wide

GRADES K TO 2 • YEAR-ROUND

A smaller-scaled classroom garden that will inspire hands-on learning and inquiry into food production, as well as seeds, nutrition, soil science and plant needs. In just a few weeks your students will plant, grow, harvest and eat microgreens! Applications open November 2022.

IN-SCHOOL PROGRAMS

Classroom Presentations

Province-wide

GRADES K TO 6

Supplement a lesson plan with a fun, engaging activity delivered by an AITC-SK representative! We will work with you to ensure our presentation is hands-on and meets curriculum outcomes. This program will be offered with a regional focus at different times of the year. Sign up for AITC-SK's educator e-newsletter to be notified when registration opens.

Little Green Thumbs

Province-wide

GRADES 3 TO 6 • YEAR-ROUND

An indoor gardening program that creates dynamic learning opportunities for teachers and students by growing food in their classrooms. Gardens are living laboratories, a place where students can apply and learn real-life STEM skills while fostering critical thinking, communication, collaboration and creativity. Applications open March 2023.

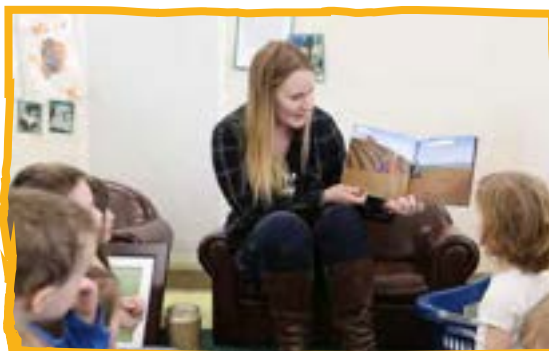

Canadian Agriculture Literacy Month (CALM)

Province-wide

GRADES K TO 6 • MARCH

If your students have questions about farming and where food comes from, let us coordinate a classroom visit from a local farmer or agriculture industry professional. They will read a book or do an activity with the students and share their personal agriculture story! Registration opens December 2022.

IN-SCHOOL PROGRAMS

Seed Survivor

Province-wide

GRADES 3 TO 5 • SPRING

Book the Seed Survivor mobile classroom to visit your school. Students learn about plant needs and soil nutrients through an engaging presentation, sunflower planting station, interactive games, and much more.

A Seed Survivor Virtual Presentation and Classroom Kit are also being offered and will help students understand what plants need to survive. Teachers will gain access to in-class and eLearning activities, games, videos, posters, recipes and more! Plus we will send a Classroom Kit that includes all of the supplies for hands-on learning!

OUT-OF-SCHOOL PROGRAMS

Farm & Ag Tours

Province-wide

GRADES K TO 6 • FALL & SPRING

An opportunity for your students to experience a farm or ag business first-hand! We will connect your students with people involved in producing food, so they can ask their burning questions about where food comes from. Our staff works with you and the tour host to ensure it is a memorable learning experience.

Don't miss
registering for a program!
Sign up for our monthly
e-newsletter:
www.aitc.sk.ca

Food Farms

Province-wide

GRADES 3 TO 4 • FALL & SPRING

Experience the full cycle of farming! Students learn about where their food comes from by growing ingredients for familiar foods such as pizza, burgers and fries. Grade 3 students plant crops in Spring and return to harvest them in Fall.

Virtual Food Farms also available for classes to work through online stations! We'll send a Learning Kit with the materials for hands-on activities.

OUT-OF-SCHOOL PROGRAMS

Agribition Agri-Ed Program

Regina & area

GRADES 2 TO 5 • NOVEMBER

Students learn about where the food on their table comes from by visiting engaging sessions involving live animals, interactive activities and more at Canadian Western Agribition in Regina.

Agribition Virtual Q & A Sessions will be offered again for students to experience Agribition from the classroom. Sessions will be hosted virtually with a daily live Q & A on topics like grain, bison, sheep, alpacas, and more.

Garden EXperience

Saskatoon & area

GRADES 3 • MARCH

Bugs, dirt, plants, birds, and seeds – so much fun for your students! Connecting directly with the science curriculum, this half day program will engage and excite your students as they get their hands dirty planting and learning how to compost.

Connect with us!

Explore, Experience and Discover

what agriculture means to our province and the world! Students interact with and learn about livestock and animal care, food production and Saskatchewan's agriculture industry through hands-on, curriculum-based activities. Find a program near you:

AG EXperience

Saskatoon

Host Partner: Saskatoon Prairieland Park Corporation

GRADE 4 • OCTOBER

Don't miss registering for programs!
Sign up for our monthly e-newsletter
to be notified when programs open!

Harvest Showdown Education Program

Yorkton

Host Partner: Yorkton Exhibition

GRADES 4 & 7 • NOVEMBER

Discover the Farm

Swift Current

Host Partner: Swift Current Agricultural and Exhibition Association

GRADES 3 TO 5 • APRIL

Featured Resources

Mission: Super-Human

Hlth, Sci

GRADES 6 TO 8

MINI UNIT
PLAN

"It was very engaging for all my students. Students were excited for each mission and worked very hard as individuals and as a team. I even had students who normally don't participate, were excited to beat the villains."

- MIKE NOWOSAD, SACRED HEART SCHOOL

A gamified resource that teaches students about healthy food, how to make healthy food choices, and how to interpret food labels and advertisements. Each lesson is a 'Mission' where students work in groups to create a Super-Human to defeat villains that are trying to take over the food system.

Healthy Foods from Healthy Farms

Careers, Hlth, Sci, SS

GRADES 7 TO 8

LESSON
PLAN

"I really liked the video... It was nice to see a lot of different farms and jobs involved in agriculture. I also liked the guided questions in the teacher's guide."

- TAMARA SAUSER, SALTCOATS SCHOOL

Students discover and learn about people who grow and process food in the communities around them! A 3-part video takes students on a journey behind the scenes at farms and processing facilities, then through discussion questions they will begin to make connections between the food we eat and the people who grow it and process it.

MINI UNIT PLANS

Feeding a Growing World: Exploring Saskatchewan's Role in Global Food Security

SS

GRADE 7

Your students will inquire, explore and investigate how Saskatchewan agriculture might contribute to global food security for 9 billion people. A video, interactive SMART Board game, classroom activities and inquiry-based project will enhance your student's learning experience.

FR

connectAG

Careers, Sci, SS

GRADES 7 TO 9

This online resource invites students to explore Canadian agriculture by introducing them to farms and farmers across 10 provinces, including the variety of agricultural commodities they produce and their link to our food system.

FR

LESSON PLAN

Food Security - Budget Game

Hlth, SS

GRADES 6 TO 8

Through this activity students will learn about food security and some of the causes of food insecurity both globally and at home. Then students will explore how food fits into a household budget through a simulated exercise. Students will get a chance to explore how real-world challenges can affect the budgets and food choices of families.

INFORMATIONAL RESOURCES

thinkAG Website

Careers, Hlth, Sci

GRADES 5 TO 8

thinkAG.ca is a one-stop shop for learning resources and experiences to ignite interest in agriculture and food careers. Offering students insight such as jobs tailored to their interests and personalities, this site will help them find their purpose-driven career.

FR

VIDEOS

Guardians of the Grasslands

Sci

GRADES 7 TO 9

A documentary that explores the current state of one of the world's most endangered ecosystems and the role that cattle play in its survival. A Teacher Guide provides viewing questions and extension activities.

FR

IN-SCHOOL PROGRAMS

Journey 2050

Province-wide

GRADES 7 TO 9 • YEAR-ROUND

Students explore global food sustainability led by agricultural experts and farm families from Kenya, India and Canada that guide students through a virtual farm simulation, career avatar game and geography scavenger hunt. Book a guest speaker from AITC-SK to come to your school or virtually deliver part of the experience.

Classroom Presentations

Province-wide

GRADES 7 TO 9

Supplement a lesson plan with a fun, engaging activity delivered by an AITC-SK representative! We will work with you to ensure our presentation is hands-on and meets curriculum outcomes. This program will be offered with a regional focus at different times of the year. Watch AITC-SK's educator e-newsletter for registration.

Don't miss registering for programs!
Sign up for our monthly e-newsletter
to be notified when programs open!

OUT-OF-SCHOOL PROGRAMS

Biotech Blast

Saskatoon

GRADES 7 TO 9 • MAY

A one-day program that will engage your students in science-related activities through hands-on, interactive sessions that are hosted by today's leaders in the fields of science and biotechnology. Students learn from dynamic presenters about today's agricultural innovations and the future of the agriculture industry.

Farm & Ag Tours

Province-wide

GRADES 7 TO 9 • FALL & SPRING

An opportunity for your students to experience a farm or ag business first-hand! We will connect your students with people involved in producing food, so they can ask their burning questions about where food comes from. Our staff works with you and the tour host to ensure it is a memorable learning experience.

Sask Food Story

Saskatoon

GRADES 6 TO 9 • OCTOBER

Your students will observe a working dairy barn with a robotic milking parlour, explore the Feeding the World interpretive Center, try their hand at making a favourite food product, and play a food security game investigating the role that Saskatchewan farmers play in global food production.

Sask Feeds the World

Regina

GRADES 6 TO 9 • SEPTEMBER

This half-day program encourages your students to examine the important role Saskatchewan plays in contributing to local and global food security. Students will tour a variety of stations exploring topics such as economy, trade, environmental stewardship and nutrition.

thinkAG Career Expo at Canada's Farm Show

Regina

GRADES 5 TO 6 • JUNE

Students will have the opportunity to explore many exciting careers and opportunities in agriculture. This full event day includes a fun, gamified learning component along with a scavenger hunt tour through Canada's Farm Show with career-focused educational stops.

Featured Resources

Pandemic Food Panic!

Sci, SS, Hlth
GRADES 9 TO 12

LESSON
PLAN

"I absolutely adored this resource... It has real world applications when it discusses the pandemic, and brings in things that interest students (memes, influencers etc)."

- SUSAN BARTON,
SACRED HEART HIGH SCHOOL

Using a problem-based learning approach and real-life examples, students will examine the impact COVID-19 had and continues to have on our food system. Students work through an interactive, online learning resource, then are posed with a real-world problem and must investigate and propose a solution.

thinkAG Website

Careers, Hlth, Sci
GRADES 9 TO 12

INFORMATIONAL
RESOURCE

"The thinkAG website is a great way to help students think about their interests: whether that's technology, communications, finance - you name it - and to see that all of these have a place in agriculture."

- DARREN GASPER, SUN WEST
SCHOOL DIVISION

thinkAG.ca is a one-stop shop for learning resources and experiences to ignite interest in agriculture and food careers. Offering students insight as to jobs tailored to their interests and personalities, this site will help them find their purpose-driven career.

LEARNING KITS

thinkAG Career Case

Careers, Hlth, PAA, Sci, SS
GRADES 9 TO 12

A gamified learning experience where students explore their personal interests and learn about careers in agriculture. The game demonstrates the diversity, variety, and importance of careers in agriculture. Through participation, students will begin to envision themselves and their diverse interests fitting into agriculture. Book AITC-SK to facilitate the game in your classroom.

MINI UNIT PLANS

Growing Green

Careers, Sci, SS
GRADES 9 TO 12

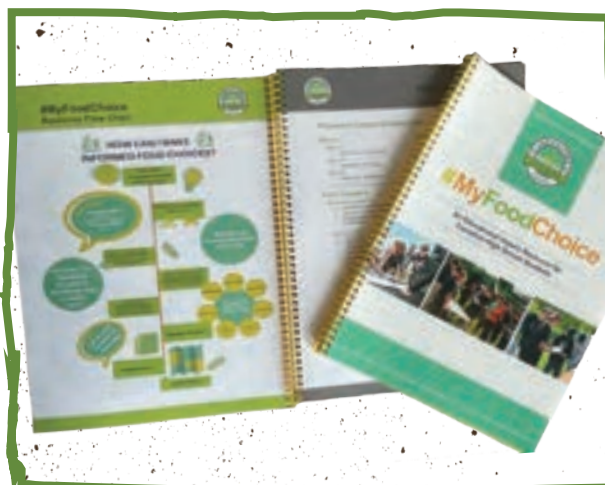

Through this interactive resource students explore the concepts of climate and climate change, investigate the impact on agriculture, and are challenged to propose solutions to help farmers mitigate or adapt to the changes. The exercises and activities will help students understand how climate change affects the real world.

#MyFoodChoice

Hlth, ELA, Sci, SS
GRADES 9 TO 12

Students are encouraged to think critically about answering the overall question of "How can I make informed food choices". This resource has videos, interactive student sheets and more! A downloadable version is also available.

MINI UNIT PLANS

The Real Dirt on Farming

Hlth, PAA, Sci, SS

GRADES 9 TO 12

Wondering about the role of pesticides, hormones and antibiotics in our food? In this resource, Canadian farmers discuss important issues that exist in today's food industry, and give you the facts that you need to help educate your students about modern food production. Accompanying teacher guide is also available to order or download.

FR

Cooking Up Chicken

Careers, Hlth, PAA, Sci

GRADES 9 TO 12

Students learn about topics including food safety, food preparation, cooking, food security, chicken production, marketing, and more! This resource includes recipes, student worksheets, lab activities, handouts and a marking rubric.

Planet X: 'Out of this World' Opportunities in Agriculture and Food

Careers, Sci, SS

GRADES 9 TO 12

Students are given the mission to assemble a team of food production professionals to send to Planet X to sustainably produce food. Students will gain a knowledge and appreciation of the multitude of professions within the Agriculture and Food sectors, while also understanding the importance of everyday food production and sustainability to the global population.

FR

FREE to order
& download at:
www.aitc.sk.ca

VIDEOS

Guardians of the Grasslands

Sci

GRADES 9 TO 12

A documentary that explores the current state of one of the world's most endangered ecosystems and the role that cattle play in its survival. A Teacher Guide provides viewing questions and extension activities.

Before the Plate

Careers, Hlth, PAA, Sci, SS

GRADES 9 TO 12

An intriguing documentary about the questions, the stories and the people behind where our food comes from and how it gets to our plate. This resource includes a comprehensive Student Guide and Teacher Guide.

FarmFood360*

Sci, SS, Hlth

GRADES 9 TO 12

FarmFood360* is a series of Canadian farm and processing facility virtual tours. A teacher guide is also available that provides follow up questions to test your students knowledge and additional resources to extend learning.

INFORMATIONAL RESOURCES

snapAG

Sci, SS, Hlth

GRADES 9 TO 12

Infographic-style sheets for students to discover accurate, balanced and current information about hot topics in agriculture like regenerative agriculture, robotics, food security, pesticides, and more! 70+ sheets to discover. Extend learning by downloading snapAG Jeopardy.

IN-SCHOOL PROGRAM

Explore Digital Agriculture Presentation

Province-wide

GRADES 10 TO 12 • YEAR-ROUND

Students learn about the exciting elements of digital agriculture and the careers associated with this area of the sector. A guest presenter engages students in learning about agricultural technology. Then students work collaboratively to solve real-life agricultural challenges. A virtual presentation is also available.

Journey 2050

Province-wide

GRADES 9 TO 12 • YEAR-ROUND

Students explore global food sustainability led by agricultural experts and farm families from Kenya, India and Canada that guide students through a virtual farm simulation, career avatar game and geography scavenger hunt. Book a guest speaker from AITC-SK to come to your school or virtually deliver part of the experience.

OUT-OF-SCHOOL PROGRAMS

thinkAG Career Expo

Regina

GRADES 9 TO 12 • NOVEMBER

Students will have the opportunity to chat face-to-face with industry experts who will discuss their pathway into the agriculture industry, and what their day-to-day looks like now. Students can ask questions from experts in Food Science, Veterinary Medicine, Business, Biochemistry and more!

Career Case Presentation

Province-wide

GRADES 9 TO 12 • YEAR-ROUND

A facilitated version of our newest career education resource. A guest presenter guides your class through a gamified learning experience, encouraging students to explore their personal interests and learn about exciting career opportunities. Through exploring real-life scenarios, students will begin to envision themselves and their diverse interests finding a future in agriculture. A virtual presentation is also available.

Farm & Ag Tours

Province-wide • **FALL & SPRING**

GRADES 9 TO 12 • YEAR-ROUND

An opportunity for your students to experience a farm or ag business first-hand! We will connect your students with people involved in producing food, so they can ask their burning questions about where food comes from. Our staff works with you and the tour host to ensure it is a memorable learning experience.

Food connects us all to agriculture.

Agriculture education provides the opportunity to create memorable learning experiences for students as they explore their personal connection to food and agriculture.

Let us help you meet curricular outcomes in a fun, engaging way.
